

## Internal Controls & Dealing Procedures

The object of the game is for the player to achieve a higher poker hand than the dealer, according to standard rules of poker.

### GENERAL OVERVIEW

To start the game, each player shall place an ante bonus wager and has the option to place a bet in the 1<sup>st</sup> wager position prior to the dealer announcing "No More Bets". The Ante Wager amount will be equal to the amount of the 1<sup>st</sup> Wager. All Optional 3 Card Bonus bets must be placed at this time. Each player and the dealer will be dealt three consecutive cards face down. Players are not allowed to make an optional 3 card bonus bet without placing the ante and first wager.

After players view their cards, they have the option of folding or placing a 2<sup>nd</sup> Wager equal to their 1<sup>st</sup> Wager. Players that have a 3 card bonus hand will place their hand face up on the table so the dealer can award them their bonus. No 3 Card Bonus claims will be allowed once the dealer has dealt the final four cards. Players that have made a 2<sup>nd</sup> wager will receive their four final consecutive cards dealt face down. If a player elects to fold, he/she will lose all wagers placed on the Ante Bonus and 1<sup>st</sup> Wager positions.

Once all players who have placed a second wager have reviewed and using the seven cards dealt, have placed their five card hand face down on the layout, the dealer will then exposes his or her seven cards and proceed to make the best five card poker hand by arranging the cards by standard poker ranking. Upon receiving their four additional cards, each player will discard 2 of their cards in the spot marked 2 discards. The player's five card hand is then compared to the dealer's five card hand. If the dealer's five card poker hand beats the player's hand, the dealer collects the Ante Bonus Wager as well as the 1<sup>st</sup> and 2<sup>nd</sup> wagers. If the player hand ties that of the dealer, the hand is a push. Winning hands are paid 1-to-1 on the 1<sup>st</sup> and 2<sup>nd</sup> wagers positions. Players are allowed to wager solely on the Ante Bonus without placing any other wagers to participate in the Boston 7 Stud Poker game. A Player who elects not to place a wager in the 1<sup>st</sup> or 2<sup>nd</sup> positions will not qualify to receive a payout in either of those positions. If a player has placed a bet solely on the Ante Bonus position, each player will have their Bonus Wager settled in the same order as the other players.

### WAGER PAYOUTS

#### *OPTIONAL THREE-CARD BONUS WAGER*

After making the ante and first wager, a player may make an additional optional bonus wager by placing a gaming chip on the designated betting area on the layout. An optional bonus wager enables the player to win additional payouts based on the first three cards dealt to the player. ### PROCEDURES FOR DEALING THE CARDS/COMPLETION OF ROUND OF PLAY

All rules and procedures used in Boston 5 with regards to Opening the Game, Shuffle Procedure, Cutting the Deck and Delivery of the cards shall be adhered to with the following exceptions:

1. All Ante and optional 1st wagers shall be placed prior to the dealer announcing "no more bets". When placing the Ante and 1st Wager, a player has the option of placing an optional bonus wager in the designated betting area (minimum \$1.00).
2. The dealer shall announce "no more bets".
3. The dealer shall deliver the first stack of three cards dispensed by hand or by the shuffler face down to the player farthest to his/her left who has placed a wager. As the remaining stacks are dispensed, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who have placed a wager. The dealer shall then deliver a stack of three cards face down to the area designated for the dealer's hand. Optionally the cards may be dealt clockwise one at a time.
4. After the three cards have been delivered, any player who has placed an Optional 3 Card Bonus wager must expose those cards in order to qualify for the optional bonus payout. The dealer shall collect all losing Optional 3 Card Bonus wagers from player's who elected not to expose their three card hand or players who exposed the three card hand that did not qualify for the Optional 3 Card Bonus payout. The dealer shall then pay all winning Optional 3 Card Bonus wagers, all three card bonus hands that were exposed will be turned face down once payment has been made to the player.
5. After the Optional 3 Card Bonus wagers have been settled, each player shall either place a 2<sup>nd</sup> wager equal in amount to their 1<sup>st</sup> wager or fold thus forfeiting the Ante Bonus Wager and 1<sup>st</sup> wager. If the player folds, the entire Ante Bonus Wager and 1<sup>st</sup> wager are collected by the dealer and placed in the table inventory container. The folded hand shall be collected and placed in the discard rack.
6. If a shuffle machine is in use, once the three cards has been delivered and all second wagers have been placed, the dealer shall remove the remaining cards from the shuffler, place the cards in either hand and shall deal the final four consecutive cards face down to each player who has placed a second wager and to the area designated for the dealer's hand. If dealing by hand or machine, once the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. Cards held by the dealer must at all times be kept in front of the dealer and over the table inventory container.

7. After the four final cards have been dealt, the dealer shall place the stub in the discard rack without exposing the cards.
8. The stack of seven cards comprising the dealer's hand shall be spread in a row and placed in the designated areas in front of the table inventory container. The dealer shall turn over and reveal all seven cards of his or her hand spreading the cards simultaneously and shall set the highest five card poker hand.
9. The dealer shall, starting with the player farthest to his or her right and continuing counterclockwise around the table, turn over each player's cards. The wager of each player will be resolved in order, regardless of the outcome. (Dealer is not required to set player's hand.)
  - a. Losing wagers will be immediately collected and placed in the table inventory container. Losing hands will be collected and placed in the discard rack. Ante, first and second wagers will lose if the hand of the dealer has a hand rank higher than that of the player.
  - b. If the player's hand rank ties with the dealer, the hand is a push. The dealer will only collect the cards of that player.
  - c. 1st and 2nd wagers of the player will win if the hand rank of the player's hand is higher than the rank of the dealer's hand. After paying winning 1<sup>st</sup> and 2<sup>nd</sup> wagers, the dealer shall determine if the hand qualifies for an Ante Bonus payout. If the player does not have a qualifying Ante Bonus hand, the player's Ante is retained by the player.
  - d. A player who qualifies for an Ante Bonus payout is entitled to that Ante Bonus payout regardless of whether the hand of the player is higher in rank or ties that of the dealer.
- F. A player who wagered solely on the Ante Bonus Wager will have the bet settled at this time.
