Hold Instructions & Card Instructions:

In addition to instant play, there are 105 Total Holders with 105 Total Hold tickets; 15 Bunny holds with one Bunny number (01-15) per ticket; 15 Red 13 holders with one Red 13 number (113-1513) per ticket; and 75 Total Bingo Holders tickets with 1 Bingo Hold number (B01-O75) per ticket. All holders will sign their name next to their number on the sign-up sheet.

Once the game is completely sold out, the operator will announce the Bet on Bunnies game is in play, Serial number XXXXXX, and will use the bingo machine to determine the Bingo winners.

To Determine the BUNNY RACE Winner and RED 13's Winner

The **BUNNY** winner is determined by the first vertical row to be filled on the bingo board (i.e. for Bunny 1 to win, the numbers B-01, I-16, N-31, G-46 and O-61 would be called prior to any other row being vertically called). The winning Bunny number corresponds with the top number of the winning vertical row (01-15). It is only possible for there to be a single Bunny winner. The numbers are called until a vertical row has been filled.

The **RED 13's** winner is the player holding the number that matches the winning Bunny number. For example, if the Bunny winner is B01, then the winning RED 13's number will be 113.

To Determine the BINGO Winner

There will be 2 **BINGO** Winners. The first Bingo winner will be determined by the first ball called with the bingo machine. The player holding the ticket with the first number called will win \$100. The second Bingo winner will be determined by the last ball called to complete the winning vertical row. As an example, if I-16 is the last ball called in the winning vertical row highlighted below, then the player holding this number will win the \$100 prize.
