## How to Play

This is a new 5 window seal card game from Specialty Manufacturing. To play, the player would pay \$0.50 for the ticket and then open the 5 windows on the backside to reveal the symbols. If the symbols inside the ticket match any winning combination of symbols from the front, the player is a winner. All winners will have the yellow Payrite box showing the exact dollar amount won.

## Seal Card Instructions

In addition, there are 12 HOLD TICKETS with a winning combination of three ace-of-spades symbols and "pick" window #1-12 illustrated in a yellow box in the bottom window of the ticket in each deal. Players will sign up on the designated line that matches the one on their ticket, and at the end of the deal the operator will open the twelve windows on the seal card to reveal the prizes won. These prizes vary from \$5 to \$250, and every player that has signed up will win at least \$5. The winning prize amounts will be printed on the backside of the seal window. This is done so the seal window can be torn off the seal card and attached to the corresponding ticket that matches that window number for verification and tracking purposes.
