Hold Instructions & Card Instructions:

In addition to instant play, there are 90 Total Holders with 90 Total Hold tickets; 15 Horse holds with one Horse number per ticket and 75 Total Bingo Holders tickets with 1 Bingo Hold number (B01-O75) per ticket.

Once the game is completely sold out, the operator will announce the Ho Ho Horses game is in play, Serial number XXXXXX, and will use the bingo machine to determine the Bingo winners.

TO DETERMINE THE HORSE WINNER

The HORSE winner is determined by the first vertical row to be filled on the bingo board (i.e. for Horse 1 to win, the numbers B-01, I-16, N-31, G-46 and O-61 would be called prior to any other row being vertically called). The winning Horse number corresponds with the top number of the winning vertical row (01-15). It is only possible for there to be a single Horse winner. The numbers are called until a vertical row has been filled.

TO DETERMINE THE BINGO WINNER

The BINGO Winner is determined by the last ball called to complete the winning vertical row. As an example, if I-16 is the last ball called in the winning vertical row highlighted below, then the player holding this number will win the \$100 prize.
