How to Play

The player would pay \$0.50 for the ticket and then open the 3 windows on the backside to reveal the symbols. If the symbols on the inside of the ticket match the winning combinations on the front of the ticket, they are a winner. All instant winners will have a cash payout showing the amount won.

Bingo Event Instructions

There are 15 Down-Row "Reindeer" Hold tickets numbered 1 though 15. Each "Reindeer" Hold ticket is identified by a number in a circle, a reindeer graphic, and the word "Hold". Also, there are 75 "Santa" Hold tickets numbered B1 through O75. Each "Santa" Hold ticket is identified by a number in a circle, a Santa graphic, and the word "HOLD". All players holding the "HOLD" tickets sign their names on the corresponding sign-up line on back of the flare card. This ensures that if the game is not completely sold out in one day, the players will receive their winnings.

Once the game is completely sold out, the operator will announce the name of the game "Reindeer Racing" and serial number, and that the game is now in play. The operator will then draw bingo balls to determine the winning hold numbers in the game. The winning "Reindeer" number is determined when all the numbers in a vertical row on the bingo board are called. The number at the top of the first completed vertical row identifies the winning "Reindeer" number.

For example, as shown in the sample below, if B9, I24, N39, G54, and O68 are called, completing a vertical row on the bingo board, the winning "Reindeer" holder is Reindeer number 9. The player holding the one ticket with Reindeer number 9 is awarded the \$399 prize. The player holding the "Santa" ticket with the number matching the last number called wins a \$100 prize and the game is over. If bingo is called before a vertical column is filled the game operator will continue to draw bingo numbers until a vertical column has been filled so a winning "Reindeer" holder number can be determined.
